

Solstice Robotics

Brief description:

Solstice Robotics specializes in innovative robotic solutions for various industries, focusing on automation and efficiency.

Industry:

Robotics and Automation

Products:

Autonomous Drones, Industrial Robots, Robotic Process Automation Software

Sensitive projects (names & general descriptions):

1. Project Horizon Developing advanced AI algorithms for autonomous navigation in urban environments.
2. GreenBot Initiative Creating eco-friendly robots designed for agricultural applications to enhance sustainability.

Partners:

Tech Innovations Inc., Future Mobility Group, Eco Robotics Ltd.
